Infrastructure
Cloudflare, Vercel, Git/GitHub, Linux, Nginx, DNS

Other
Technical SEO, accessibility, automation

PROFILE

19-year-old web developer and co-founder of **IAizate**, a development studio in Cartagena, Spain. I lead web and SaaS projects end to end **by directing AI agents (Claude Code)**: I write the spec, split the work, review, demand tests and deploy. Our biggest project is **Legalix**, a SaaS for law firms with an AI legal secretary. International experience in Ireland and the USA.

AI-DRIVEN DEVELOPMENT · ADVANCED LEVEL

- **Claude Code every day**: parallel agents and subagents, custom *skills*, MCP, code review and browser testing.
- **Shipping AI products** (Legalix): model router with fallback, typed tools, risk-based confirmation and prompt-injection defences.
- **Own MCP server** with OAuth 2.1 so lawyers can use Legalix read-only from ChatGPT and Claude.

Official Anthropic courses (2026)

- ✓ **Claude Code 101**
- ✓ **Claude Code in Action**
- ✓ **Introduction to Agent Skills**
- ✓ **Introduction to Subagents**

EXPERIENCE

Co-founder & CEO
Oct 2026 – present

IAizate · Development studio · Cartagena, Spain · iaizate.com

- **Project leadership** with my partner: clients, proposals, quotes, planning and delivery.
- **AI-led development** of websites, custom software and SaaS (Next.js, React, TypeScript, Supabase).
- **Legalix**: 36,000 lines of TypeScript, 29 SQL migrations, 599 automated tests and 11 technical documents in 8 weeks.
- **Quality and security**: Row Level Security, CSP, accessibility, technical SEO and GDPR.

Lifeguard
Jun 2026 – Sep 2026

Hershey Park Camping Resort · Pennsylvania (USA)

- Pool surveillance and first aid; international customer service, 100% in English.

IT technician (Erasmus+ placement)
Mar 2025 – Jun 2025

MicroPro Computers · Dublin (Ireland)

- Computer assembly, repair and diagnostics; tech support and customer service in English.

NOEL CEGARRA LLORET

Web developer · Co-founder & CEO of IAizate · Web Development student

CIFP Carlos III · Cartagena, Spain · 2nd year · **First-year average: 8.9 / 10**

Java (OOP), Python, PostgreSQL, JavaScript, React, PHP/Laravel, interface design, deployment (Nginx, Git, Linux).

Intermediate Diploma in Computer Systems and Networks
Sep 2023 – Jun 2025

CIFP Carlos III · Cartagena · Erasmus+ placement in Dublin

Networks and services (DHCP, DNS, SSH, Apache), IT security, operating systems and hardware maintenance.

Lifeguard certificate
Jun 2026

Ellis & Associates · International Lifeguard Training Program

HOW I WORK WITH AI

This portfolio was built this way: design, code, automated screenshots of every project and deployment, all directed with Claude Code.

01	**Specify**	Goal, constraints and acceptance criteria before any code.
02	**Plan**	Split into tasks and distribute them across parallel agents.
03	**Build**	Claude Code with skills, subagents and MCP.
04	**Verify**	Tests, diff review, browser testing, accessibility and performance.
05	**Document**	Decisions and processes written down, so the next step is faster.
